Identification:

The product shall be permanently marked with the manufacturer's name or trademark. The product shall also bear the model designation, claims verified and substantiated by test data and the cUPC certification mark. Drinking water treatment systems or components shall be marked with (a) the manufacturer's recognized name, trademark, or other mark; or (b) in the case of private labelling, the name, trademark, or other mark of the customer for whom the fitting was manufactured. Markings shall be made by a permanent mark or a permanent label and shall be visible after installation. When it is impractical to affix the information specified in Items (a) and (b) directly to the product, the information shall be included in the literature accompanying the product.

Characteristics:

The point-of-use and point-of-entry systems addressed by this Standard are designed to be used for the reduction of specific substances that may be present in drinking water (public or private) which are considered health hazards. Certification demonstrates that all materials safety and structural integrity (as applicable) requirements have been met. To be used in accordance with the manufacturer's instructions. Mark can only be used if product is already certified with IAPMO R&T to a standard cited in the current revision of the Uniform Plumbing Code.

Products listed on this certificate have been tested by an IAPMO R&T recognized laboratory. This recognition has been granted based upon the laboratory's compliance to the applicable requirements of ISO/IEC 17025.
